ROOTING HIM OUT

In Chicago a red hot investigation is being made of million dollar corporations that dodge their taxes, or pay only a small proportion of what they should justly pay.

This is just one more reason why the government should make public the amount of taxes paid by every citizen and by every business concern, corporation or otherwise, INCLUDING INCOME TAX.

If big business is ever required to pay its just proportion of taxes the burden will fall less heavily upon the poor man, who has but slight opportunity to evade payment of his taxes.

Publication of the income tax, together with the property tax, will disclose whether or not there is a "gentleman of color" in the woodpile.

The public should demand full publicity in all tax matters.

Of course, if you insist upon getting poor slowly, you might stock up on liberty bonds.

During courtship they call it repartee. After marriage it becomes a plain family jar.

The man who attempts to mortgage a good reputation soon finds that he has none left to mortgage.

Some married women are experts at economy, because their husbands never have anything to spend.

Our office devil can't understand why some women are so keen for female suffrage. He thinks they suffer enough as it is.

No, food is not scarce in the big cities. You can always get a square meal if you take your bank account along.

No man can make a success in life unless he begins by believing in himself. The world's estimate of your ability is never higher than your own.

In the big cities we note that men's hats are being advertised as low as \$15 and \$20. Must be overstocked with last year's crop and forced to unload.

Soon now the census figures will be made public. For the sake of our reputation as a growing community, here's hoping each one of us was counted twice.

And still, there must be something fundamentally wrong with our system of compensation. None of us are ever paid according to our own ideas as to our worth.

Feel like making a gallon or two of booze for your own use? Don't do it. Under the provisions of the prohibition law the government, if you are detected, can seize the real estate on which it was made and throw you into the street. The antis appear to have put sharp teeth into the law, after all.

A lot of foreigners, it seems, have returned to their native countries because the United States is too "dry" for them. They are not of the most desirable class of our foreign population. Now if the rest of our objectionable aliens will annex a mighty thirst and flit to the other side we'll omit a genuine, wholesome Methodist "Amen."

Placing one's ear carefully to the ground, faint rumblings can be heard of an early drive of the anti-tobacco forces. And, to meet force with superior force, we suggest an onslaught of the army of anti-corsets, anti-rouge, anti-face creams, anti-bare backs, anti-chewing gum, anti-ice creams anti-confections, and anti-gossips. Mere man is only mere man, but when backed up against the wall and in desperation he will let out a few whoops of wholesome truths. On with the scrap!

The Old Money-Masters of England

recently appointed a committee of great English bankers to investigate the various financial systems throughout the world.

In their report they state that in their estimation the

Federal Reserve System of the United States

was the best banking system in any land.

By membership in the great Federal Reserve System, the smallest banking institution—no matter how far distant—is assured the instant support and accommodation that is necessary in caring for the financial interests of a community.

We have pride in stating that this bank is a member of the Federal Reserve.

BATTLE IN ILLINOIS

Chicago, Mar. 2.—A petition entering the name of Governor Edwards of New Jersey in the Democratic presidential race in Illinois was taken to Springfield tonight following a mass meeting here at which the New Jersey executive was endorsed. Several speakers attacked William Jennings Bryan for his opposition to Edwards. The petition will be filed with the secretary of state tomorrow, it was announced. Anton J. Cermak of Chicago was named Illinois campaign manager.

Michael Zimmer, president of the United Societies, who presided, read the following telegram from Governor Edwards:

"The first step forward for personal liberty was taken by the legislature of New Jersey today. I will carry the

same fight to the San Francisco convention. The idea of personal liberty is greater than any man. I am with you in this fight for Americanism."

Springfield, Ill., Mar. 2.—The petition of Maj. Gen. Leonard Wood as a Republican candidate at the presidential preferential primaries to be held in Illinois April 13 was filed in the office of Secretary of State Emerson today. The petition bore 5,000 signatures, representing all parts of the state.

MEXICANS ON MARCH

Washington, March 2.—Attention of officials of both the state and war departments was attracted today to the Mexican political situation by the reported arrival at Agua Prieta, on the northern frontier of the state of Sonora, of a "large force" of Mexican troops, under Gen. Manuel Dieguez. The report of the movement received here, ascribed as the probable motive the determination of the central government to place itself in position to meet any movement that might be made by forces in Sonora, which are reputed to be ready to support Gen. Alvaro Obregon, candidate, for the presidency in opposition to Gen. Pablo Gonzales, popularly regarded as the administration's choice.
